

# North West and North Wales Offshore Wind Supply Chain Event

**Date**  
Tuesday 8<sup>th</sup>  
February 2011

**Time**  
08:30 - 17:00

**Venue**  
The Floral Pavilion  
New Brighton  
Merseyside  
CH45 2JS

The offshore wind sector is showing significant growth; with substantial business opportunities for the supply chain both across the UK and internationally. Engaging the UK supply chain will be critical in enabling the UK to deliver ambitious renewable energy targets. This event is part of that engagement process and a national series of events, supported by The Crown Estate and Government.

This free event, delivered by Envirolink Northwest and The Mersey Partnership will provide both current, and potential, supply chain companies with an indication of industry requirements and procurement procedures. The aim is to equip suppliers with the knowledge and contacts to win business in the industry ahead of Round 3. Developers and a range of Tier 1 and Tier 2 companies will have the opportunity to engage directly with potential suppliers. Delegates will also have a valuable opportunity to network with hundreds of other companies from across the UK's offshore wind industry.

## Programme

|               |   |
|---------------|---|
| 08:30 - 09:10 | <b>Registration and Exhibition Viewing</b>  |
| 09:10 - 09:30 | <b>Welcome and Introduction</b><br>The Crown Estate                               |

## Workshop programme

The afternoon will provide a series of workshops running concurrently to allow delegates to participate in three of the four sessions. The workshops are designed to allow key companies operating at Tier 1 and Tier 2 to outline requirements and procurement in four principle areas.

### Workshop sessions:

Turbines and Installation  
Substations, Transmission and Distribution  
Operations, Maintenance and Logistics  
Cabling and Sub-Sea Services

|               |   |
